

ASYMMETRIC SOLUTIONS

LAW ENFORCEMENT TRAINING

In today's demanding environment, law enforcement departments and officers encounter increasing pressures from public scrutiny and political influences. Asymmetric Solutions provides a diverse array of training courses and programs tailored specifically to law enforcement officers. These offerings are designed to bolster officer safety, performance, and readiness, ultimately reducing liability exposure. Moreover, our training initiatives aim to enhance the efficiency, effectiveness, and survivability of officers in the field.

INDIVIDUAL OFFICER TRAINING

Asymmetric Solutions offers Law Enforcement officers personalized training opportunities aimed at enhancing their confidence and proficiency. Our courses prioritize the development of fundamental skills while challenging officers to broaden their capabilities, equipping them to effectively manage high-stress situations with greater confidence and effectiveness.

- Tactics-Based Training
- Individual Skills Training
- Specialty Training
- Medical Training

DEPARTMENT TRAINING PROGRAMS

Asymmetric Solutions collaborates with Law Enforcement departments to craft tailored training programs addressing key areas such as officer safety, readiness, community relations, and liability reduction while considering the department's operational and budgetary parameters, offering flexibility in venue options, whether at our facilities or a location of their choosing.

- Critical Skills Sustainment
- Department Membership Programs
- Officer Safety, Critical Thinking & De-escalation

SPECIALTY TEAMS TRAINING

Acknowledging the distinct requirements of specialized Law Enforcement teams, Asymmetric Solutions provides a range of specialized courses and programs. These initiatives are crafted to cultivate and uphold crucial skills essential for sustaining highly proficient and efficient teams. Teams have the option to choose from a selection of pre-established courses or work closely with us to devise customized solutions tailored precisely to their unique needs.

- SWAT
- Advanced SWAT
- Law Enforcement Sniper
- 3-Day Thought and Stress Inoculation Course
- Active Threat
- Close Quarters Battle
- Firearms and Tactics
- High Threat Executive Protection
- Homemade Explosives (HME)
- Law Enforcement Breacher (Mechanical, Ballistic, Thermal, Explosive)
- Surveillance/Counter Surveillance
- Tactical Mobility (Technical, High Speed, Improved/Unimproved Surface)
- Medical

COURSE DESCRIPTIONS

Asymmetric Solutions recognizes the need for flexibility due to operational and budgetary requirements and can modify the courses below to meet individual and department priorities.

SWAT:

This course delivers comprehensive instruction in the latest combat-proven principles, procedures, tactics, and techniques for SWAT operations, adhering to the highest standards set by both Law Enforcement and Military entities. Tailored for SWAT Teams and similar tactical units, it offers invaluable insights for individual officers seeking to enhance their tactical proficiency and readiness to confront dynamic threats. Additionally, the course presents a valuable opportunity for existing SWAT Team members to refresh their skills or elevate their capabilities through a combination of classroom sessions and practical application exercises.

COUNTER-AMBUSH/VEHICLE DEFENSE:

This course, tailored for experienced law enforcement professionals, provides comprehensive training on strategic planning, tactical maneuvers, and rapid response protocols crucial to mitigating the risks associated with such attacks. Practical application and scenario-based instruction, both inside and outside of the vehicle, as well as proper dismounting and engaging techniques is covered, ensuring a comprehensive skillset to officers.

ACTIVE SHOOTER (LE):

Crafted for experienced law enforcement professionals, this specialized course combines modern strategies with crucial building and room-clearing techniques. Its goal is to empower officers with the mindset and abilities required to respond swiftly and efficiently to active threat situations. Through the examination of case studies and hands-on exercises, this meticulously developed curriculum provides participants with focused and impactful learning experiences.

CLOSE QUARTERS BATTLE (CQB):

Tailored for experienced law enforcement professionals, this specialized course introduces officers to the fundamental principles and techniques of room entry and clearing, crucial for systematically addressing threats in enclosed environments while implementing optimal solutions efficiently and effectively. Participants engage in immersive practical exercises and scenario-driven instruction, equipping them with enhanced tactical proficiency for real-world deployments.

24 HOUR COMBAT SHOOTERS COURSE- 3-DAY LE COURSE:

This course is meticulously crafted to enhance participants' marksmanship and bolster their confidence in employing pistols during high-stress, life-threatening situations. Drawing from combat-proven methodologies, it is solely focused on refining and honing essential skills. It does not encompass instruction on use-of-force continuums or decision-making protocols regarding shoot/no-shoot scenarios. Rather, its primary objective is to augment attendees' capacity to respond with clarity, assurance, and precision, whether taking action or exercising restraint.

RISK AND HIGH-RISK VEHICLE STOPS:

Performing vehicle stops presents significant risks for law enforcement officers, ranking among the most hazardous tasks they undertake. The inherent unpredictability of these encounters, compounded by factors such as the potential presence of armed individuals, heightens these risks. This course offers thorough training on strategic planning, tactical maneuvers, and rapid response protocols aimed at reducing the dangers associated with such encounters. Utilizing a combination of classroom instruction and hands-on exercises, participants engage in scenario-based learning to enhance their preparedness and effectiveness in managing these high-risk situations.

FORCE ON FORCE:

This specifically designed course immerses officers in scenario-based training, elevating their proficiency in effectively managing high-stress situations. Through a blend of hands-on exercises, scenarios encompass a range of challenges, incorporating physical force dynamics, simulated edged or blunt force weapon encounters, and the use of Simunition guns, while under induced physical and mental stress, mirroring real-world challenges. Officers will gain invaluable insights into their responses and behaviors under pressure. Participants should come prepared for moderate physical exertion.

TCCC:

This essential course for law enforcement officers introduces evidence-based, life-saving techniques and strategies for providing optimal trauma care in the field, significantly improving casualty survival rates. Covered topics include managing airways, bleeding, circulation, care in a variety of situations, triage, and EMS link up and turnover procedures in both self-aid and buddy-care situations.

DIGNITARY PROTECTION:

This comprehensive four-day course delves into the fundamental principles of executive protection specifically tailored for law enforcement professionals. Participants will gain essential concepts and tactics necessary for operating within both high-threat security details and conventional low-threat executive protection teams. Emphasizing the significance of interpersonal communication over resorting to force, the curriculum aims to instill attendees with the vital knowledge and skillset to seamlessly integrate into an experienced executive protection team.

LE-LOW VARIABLE POWER OPTIC (LVPO):

This specialized three-day course offers comprehensive training for law enforcement officers on the effective use of Low Variable Power Optic (LVPO) equipped rifles for intermediate distance patrol operations, including engagements up to 600 meters at known and unknown distances. The curriculum covers weapon familiarization, marksmanship fundamentals, tactical applications, safety procedures, and includes a close-quarters battle (CQB) live-fire shoothouse exercise.

LAW ENFORCEMENT SNIPER/DM:

This comprehensive 5-day, POST certified Law Enforcement Sniper/ DM course equips participants with essential skills for effective operation as a Law Enforcement Sniper/DM, emphasizing operational tactics such as field-craft, observation, reporting, range estimation, urban tactics, and marksmanship. Instruction also covers rifle and telescopic sight mechanics, external and terminal ballistics, data book usage, hostage rescue engagements, intermediate barriers, night fire, and engaging moving targets. Training is conducted on our progressive range extending out to 600 meters.

MOBILE TRAINING TEAMS (MTT'S):

Asymmetric Solutions recognizes the complexities involved in coordinating and managing training schedules for officers. In response, we have developed the capability to deploy Mobile Training Teams (MTTs) to streamline logistical processes associated with training mandates. These teams can provide support for virtually all certified courses offered by our organization, ensuring training continuity and accessibility for our clients.
